Responsible Internet Use

As part of your child's curriculum and the development of ICT skills across the school, St Thomas of Canterbury School provides supervised access to the internet. We believe that the use of web and email is an essential skill for children as they grow up in the modern world and also enhances their learning within the classroom.

The children will be supervised during sessions on the internet and our school internet provider also operates a strict filtering system that restricts access to inappropriate materials. The class teachers will also discuss rules for responsible use of the internet with the children. These filters may not be available through your home computers and we recommend that you discuss systems with your internet provider if you have access at home.

Whilst every endeavour is made to ensure that suitable restrictions are placed on the ability of children to access inappropriate materials, the school cannot be held responsible for the nature or content of materials accessed through the internet.

If we do not hear from you we will assume that you are in agreement with all of the above.

CHILD'S NAME: _____ **CLASS:** _____

I understand that the school will take all reasonable precautions to ensure pupils cannot access inappropriate materials on the internet. I understand that the school cannot be held responsible for the nature or content of materials accessed through the internet. I agree that the school is not liable for any damages arising from the use of the internet facilities.
